Advanced Machine Learning

Departamento de Sistemas Informáticos y Computación Universitat Politècnica de València

URL: http://www.prhlt.upv.es/~jandreu

e-mail: jandreu@prhlt.upv.es

Syllabus

- Part I: Entropy concepts and machine learning
- Part II: To be announced (invited talk Prof. H. Ney)

Detailed syllabus and calendar at the this web link

Evaluation

Part I will be 70% of the mark and Part II will be 30% of the mark.

Parts II will be evaluated with the attendance. If the student attends all classes then the mark on this part will be 10 out of 10.

Evaluation of Part I will be as follows:

- 30% with an exam.
- 70% with exercises that will be given at the end of Part I.

Deadline date for delivering the exercices: 7 June 2024
